Fyi, conversation went well with Jeff Page.

I will let you know when I hear anything on notifying Gov office.

Subject: Anaconda Proposed NPL listing schedule

Jeff and Dan,

As I briefed Jeff today and left a voice mail with Dan here is what I know:

1. Pending Office of Management and Budget concurrence, the EPA NPL proposal may be published in Federal Register on September 8 with an official public notice in local papers on September 6 in afternoon. September 6 public notice is pending and will be delayed if federal register publication date is delayed. Once the proposed listing is published there is a 60 day public comment period.
2. The actual date is in flux because Anaconda listing is part of a larger listing package along with sites across the country, that may be on slightly different timelines. Based on EPA's past experience it can be delayed up to a month.
3. We have agreed with EPA to coordinate on press materials. These will include mention of

EPA/BLM/NDEP revised MOU and BLM concurrence with NPL listing. EPA also developing a communication strategy that they will share with us.

Please let me know if you have any questions and I will keep you posted as I learn anything new.

Greg
